

# Crowdsourcing: The good, the bad, the ugly

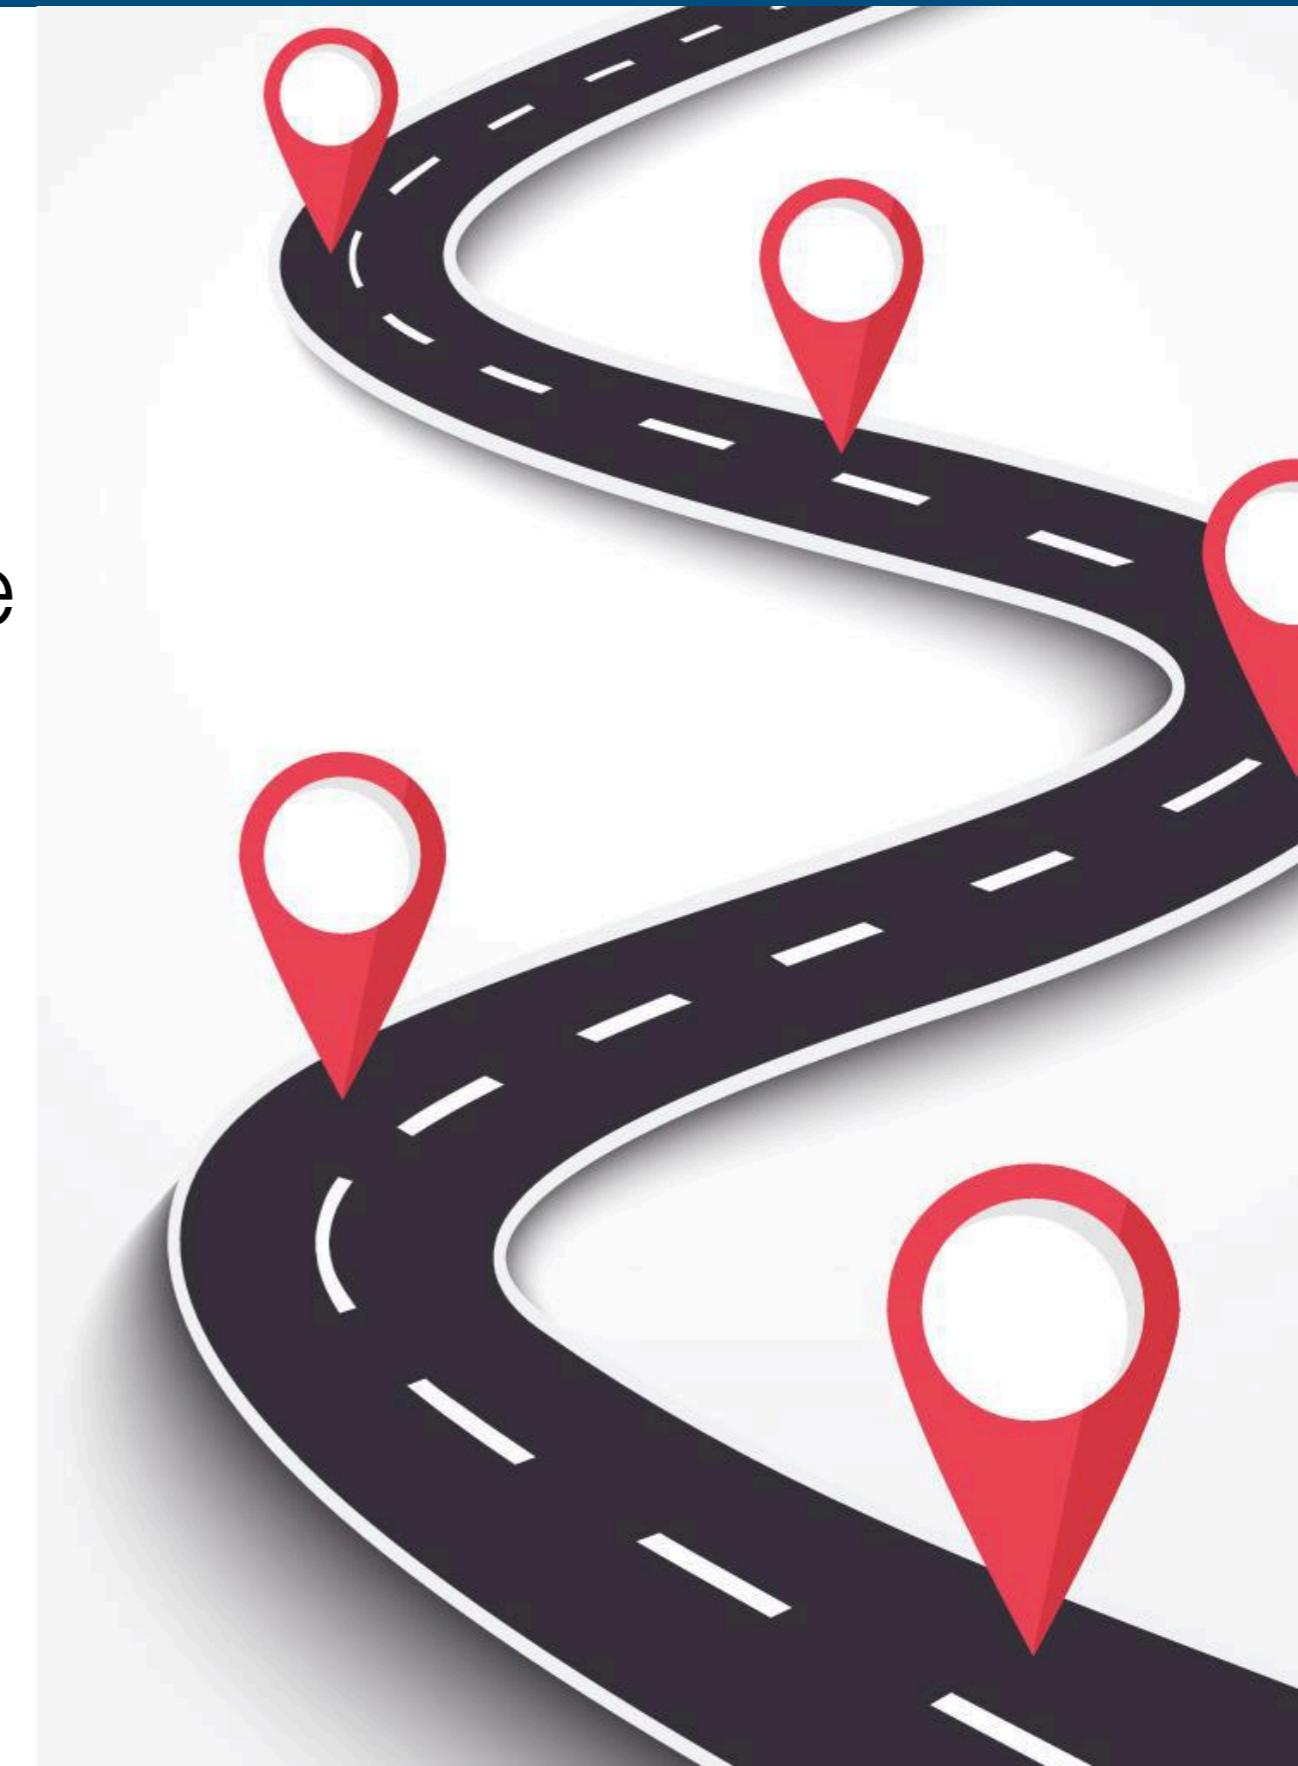

University of Glasgow M&M Talk  
2 October 2019

Carolyn Saund

# Roadmap

- Crowdsourcing & You
  - Uses
- Designing tasks for online data collection
- Demo

Crowdsourcing You

# What Is It?

Crowdsourcing & You

## Microtasking

The crowd edits microtasks that result out of major projects.

## Open Innovation

The crowds provides innovative product ideas or develops problem solutions.

## Crowdtesting

The crowd tests software.

## Crowd Sourcing

## Creative

The crowd participates in tasks of the creative sector.

## Colaborative Knowledge

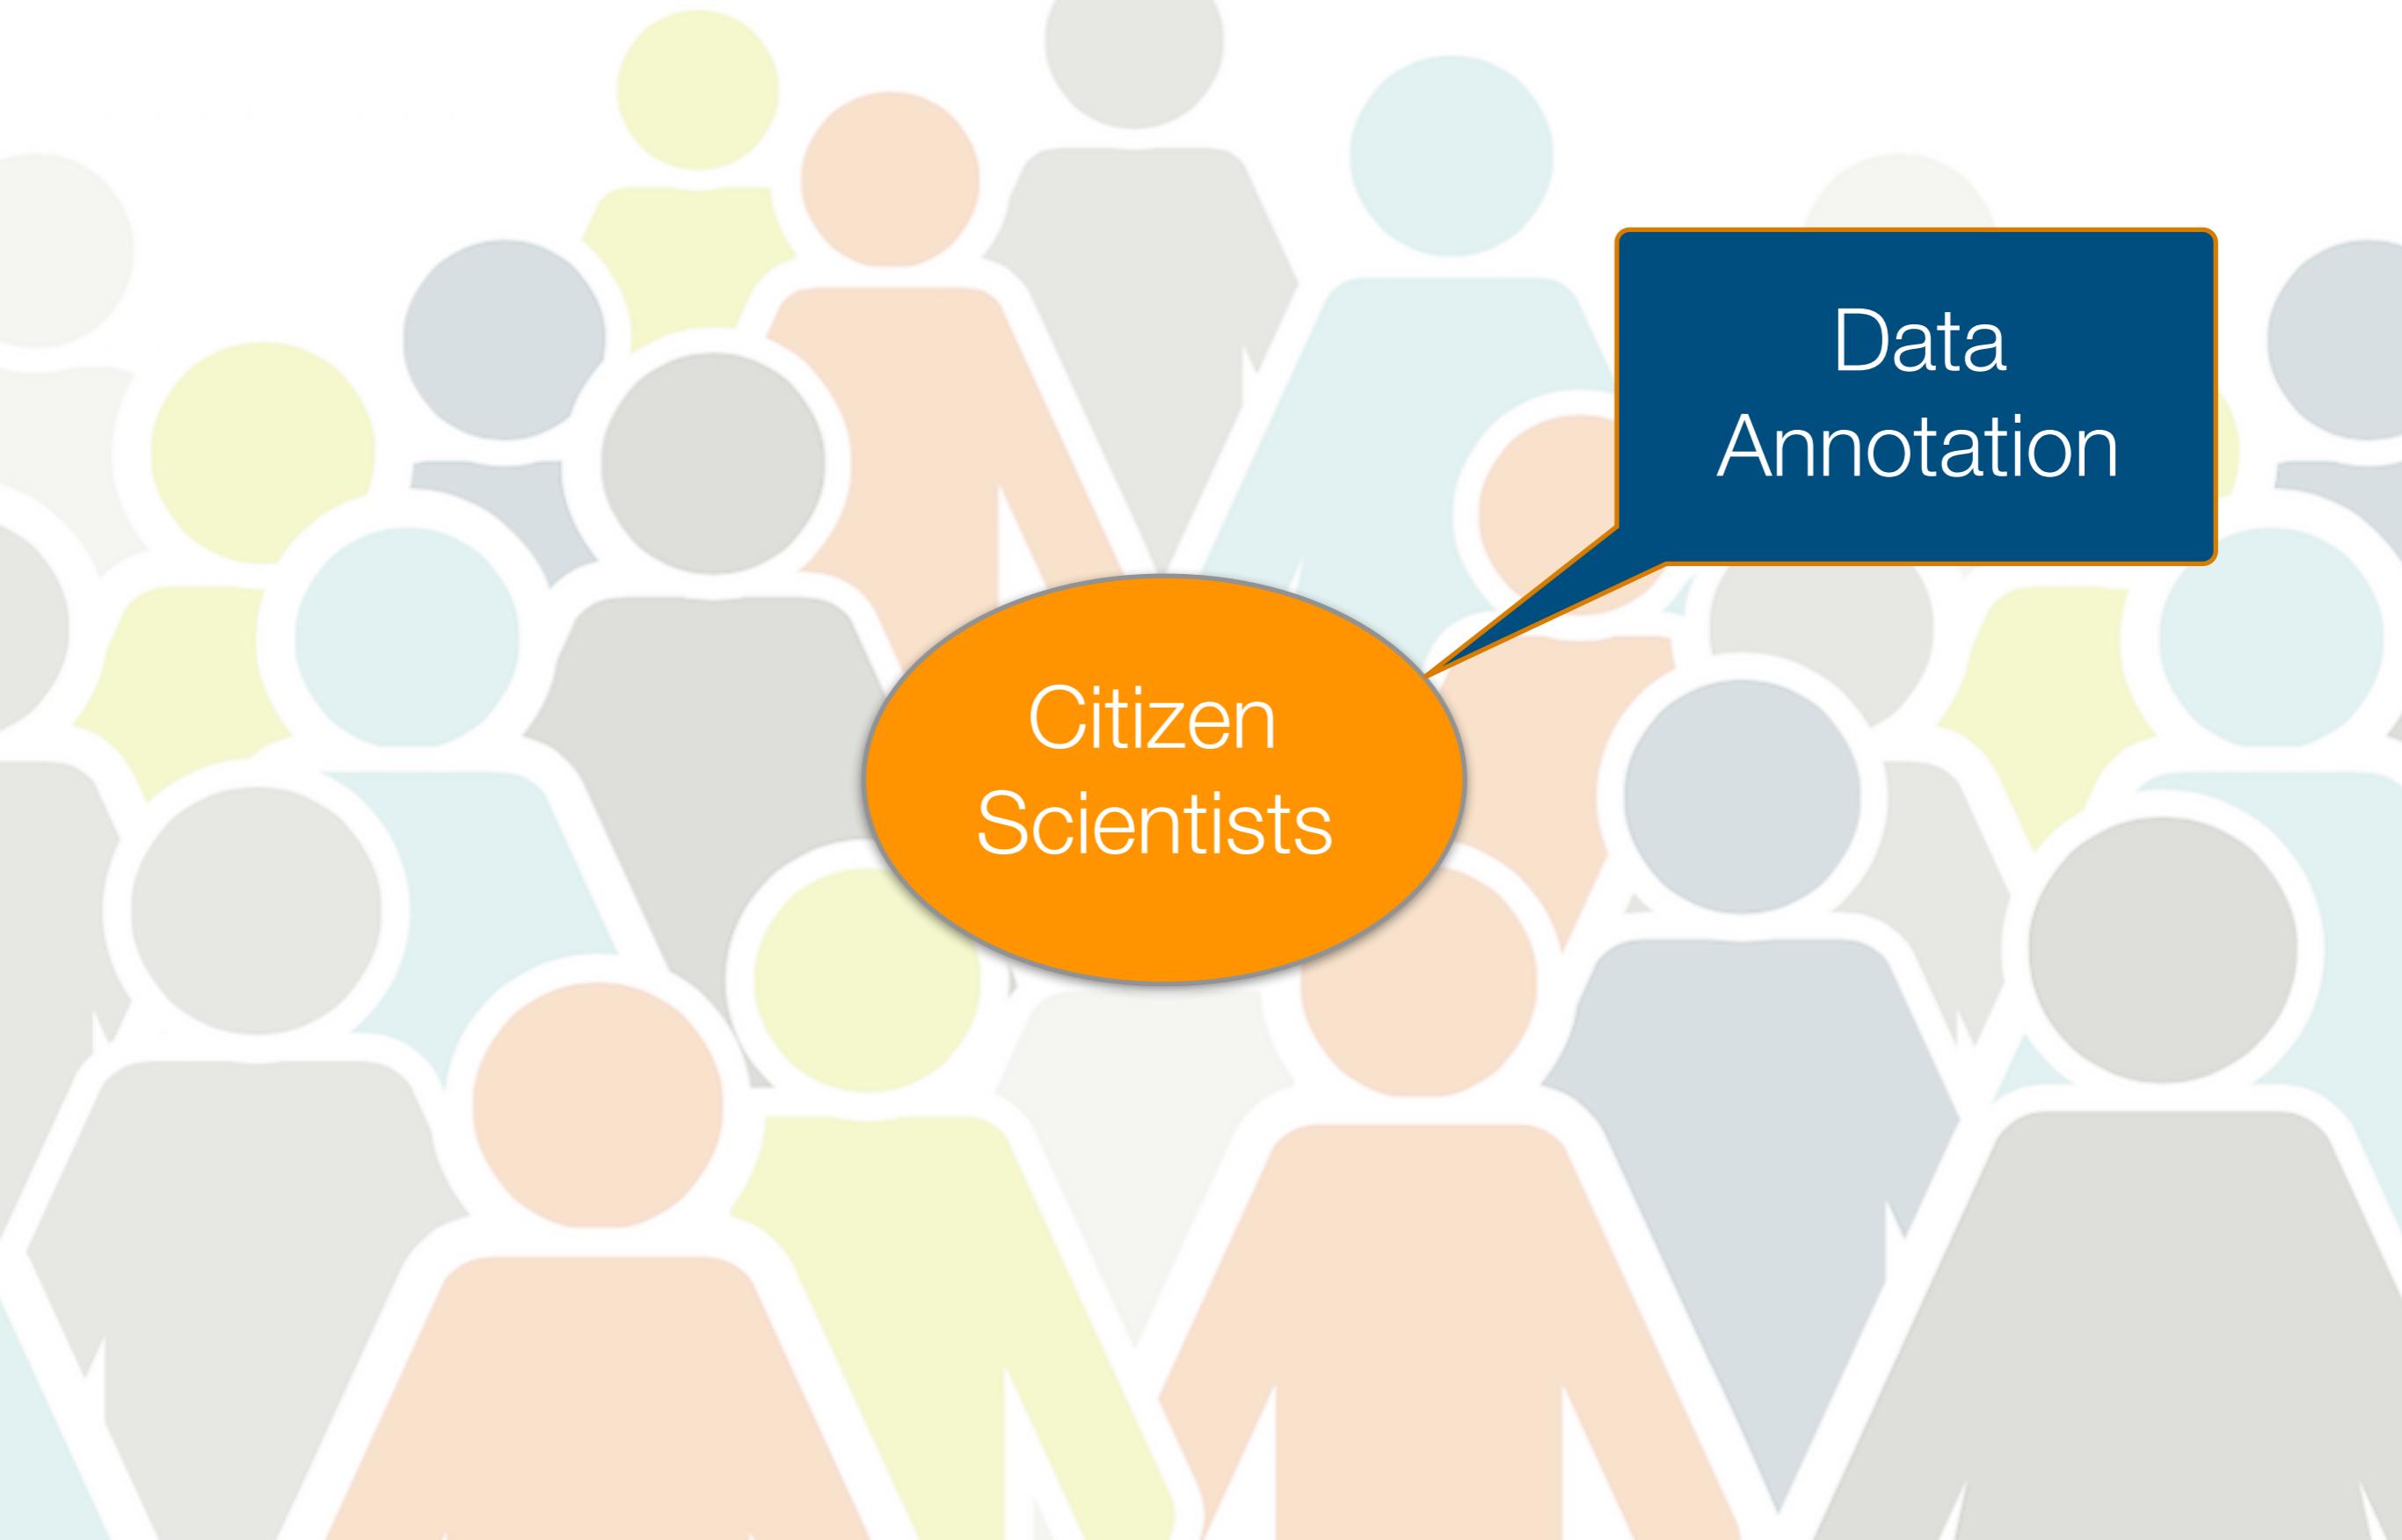

The crowd provides knowledge.

## Crowdfunding

The crowd finances projects and business ideas of all sorts.

# What Is It?

Crowdsourcing & You

A background of numerous overlapping human silhouettes in various colors (light blue, grey, orange, yellow) creates a sense of a diverse crowd.

Annotation

# What Is It Good For?

Crowdsourcing & You

- Annotation – affective video analysis
  - <http://pagan.institutedigitalgames.com/howto.php>

The screenshot displays the PAGAN annotation interface. On the left, a vertical sidebar lists project-related buttons: Project Title, My Project, Annotate, Annotation Target, RankTrace, Paste the address, Play Video, and Submit. The main area shows a video player with a dark overlay containing instructions: "Hello!", "Please turn on your camera", "Please use the [up arrow] (in red) to indicate the level", and "Please wait". To the right of the video player is a "TEST MODE" section. This section includes a "PAGAN" header with links to HOW TO & TEST, MY PROJECTS, DATASETS, TERMS, CONTACT, go back, and log out. Below the header is a form for creating a new project, which includes fields for Project Title (My Project), Annotation Target (arousal), Optional Target Description (an optional short description displayed half a second before the beginning of the annotation, use it to help participants understand the labelling task (max 200 characters)), Annotation Type (RankTrace selected), Project Source (Uploaded Videos selected), How to Load Videos (Randomly selected), Number of Annotations a Participant Completes (play all (default) selected), Play Videos With Sound (Yes selected), Optional End-Plate Message (an optional message displayed to your participants before the automatic thank you message at the end of the annotation (max 200 characters)), and Optional Google Forms Survey Link (Survey button not yet set). At the bottom of the form are submit and reset buttons. To the right of the form is a video frame showing a woman with curly hair wearing a red cardigan. Next to her is a 3D model of a man's face. Below the video frame is a line graph labeled "arousal" with an upward-pointing arrow labeled "increase" and a downward-pointing arrow labeled "decrease".

# What Is It Good For?

Crowdsourcing & You

- Annotation – image segmentation

Table 1. Detection results on 80 images (Pathologists' annotation as GT) GT nuclei = 4436

Annotations	TP	FN	FP	TPR %	PPV %	F-M %
Research Fellow	<b>4109</b>	<b>327</b>	<b>227</b>	<b>92.63 ± 0.8</b>	<b>94.76 ± 0.7</b>	<b>93.68</b>
Automated Method	3735	701	416	84.20 ± 1.1	89.98 ± 1.0	86.99
Contributor Level 1	3814	622	434	85.98 ± 1.1	89.78 ± 1.0	87.84
Contributor Level 2	4016	420	625	90.53 ± 0.9	86.53 ± 1.0	88.49
Contributor Level 3	3787	649	457	85.37 ± 1.1	89.23 ± 0.9	87.26

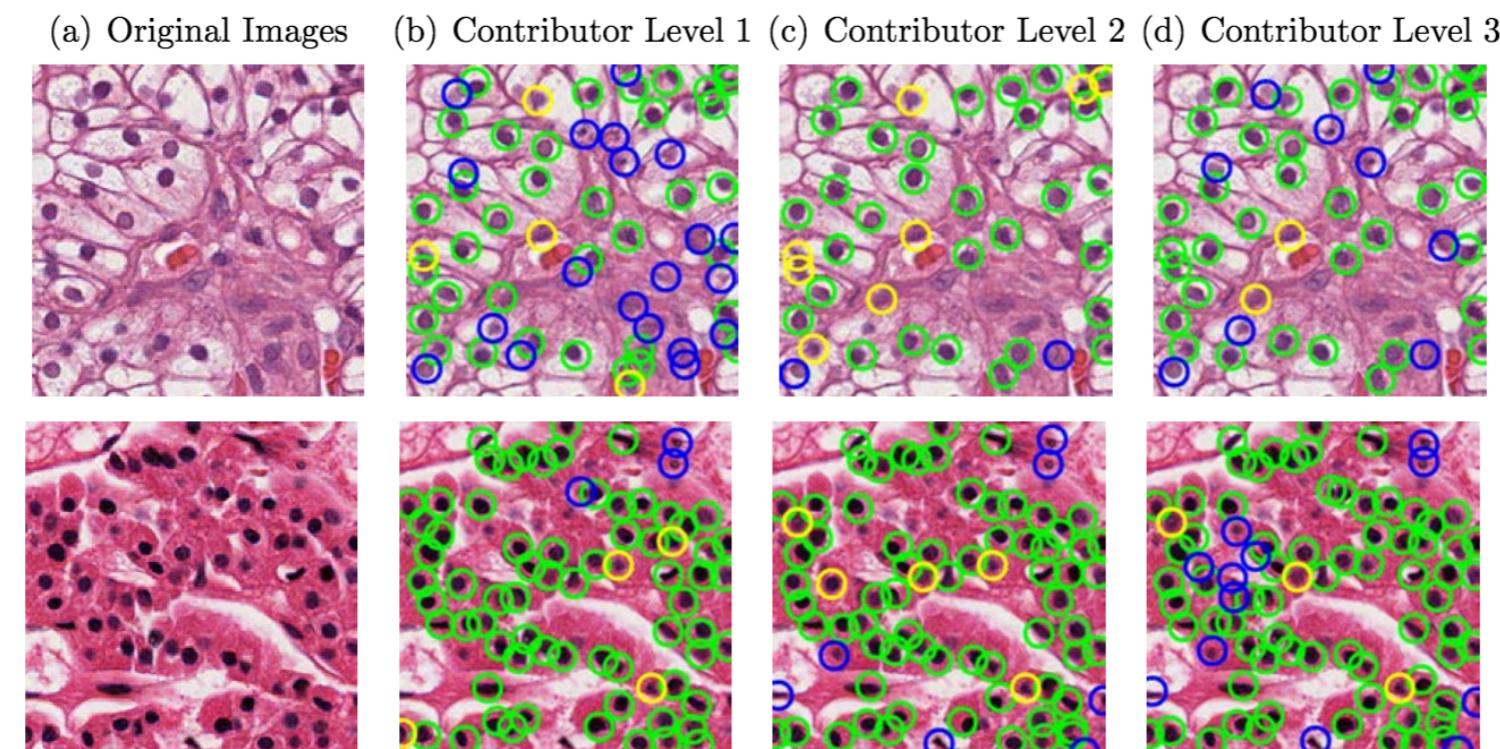

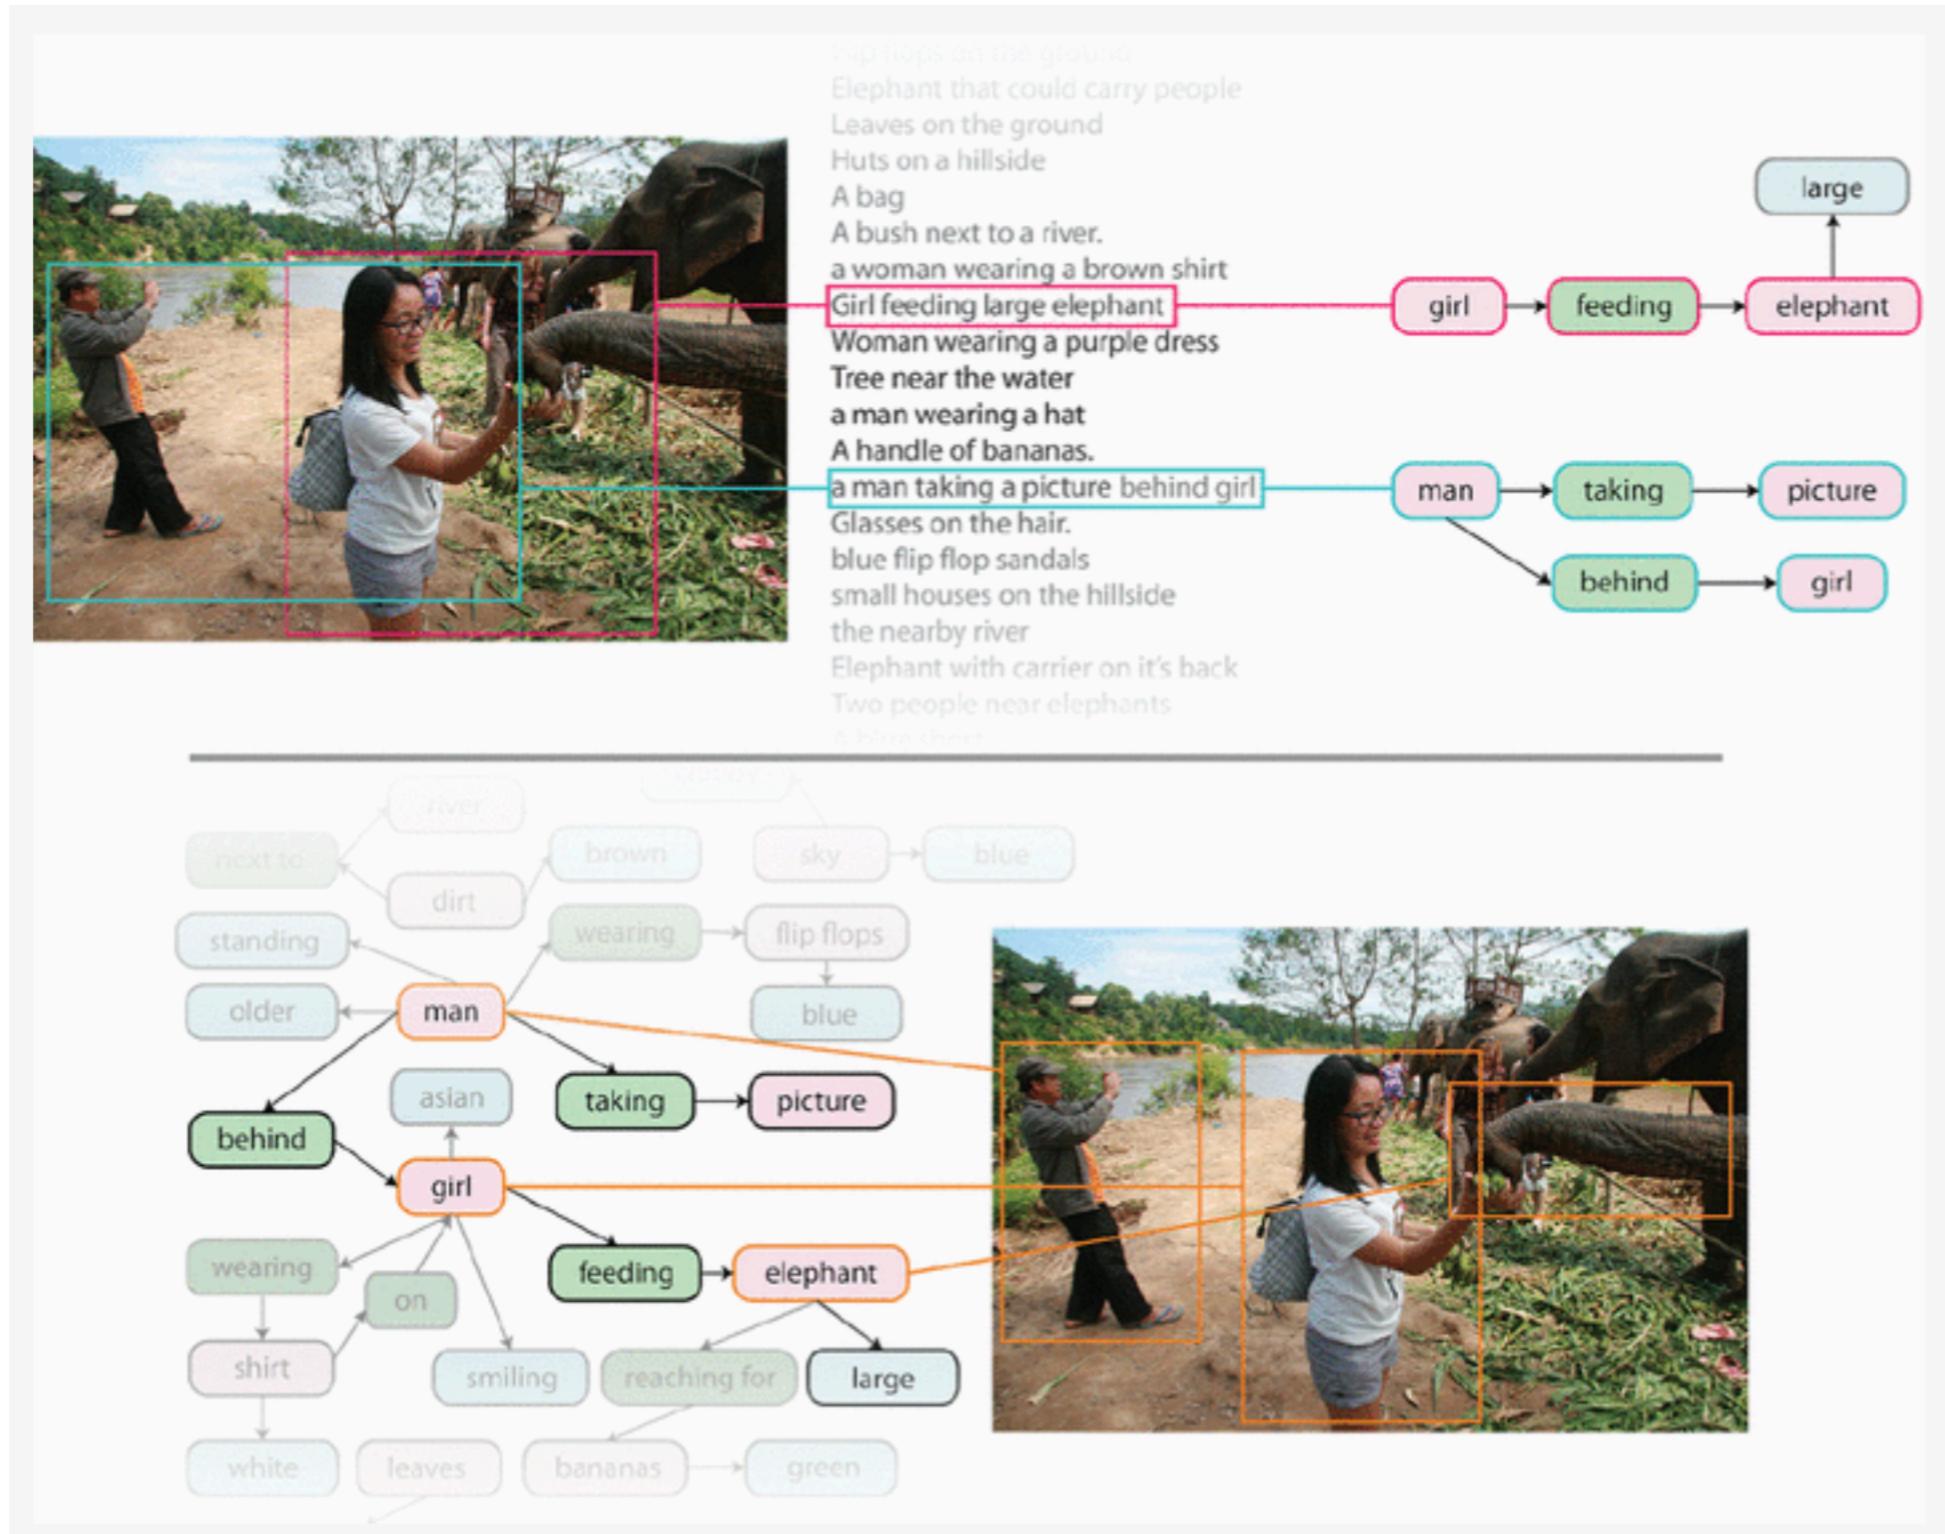

Fig. 1. Examples of nucleus detection results produced by different contributor levels (Green circle indicates TP nuclei, yellow circle indicates FN nuclei and blue circle indicates FP). The automated detected nuclei were used as ground truth.

# What Is It Good For?

# What Is It Good For?

Crowdsourcing & You

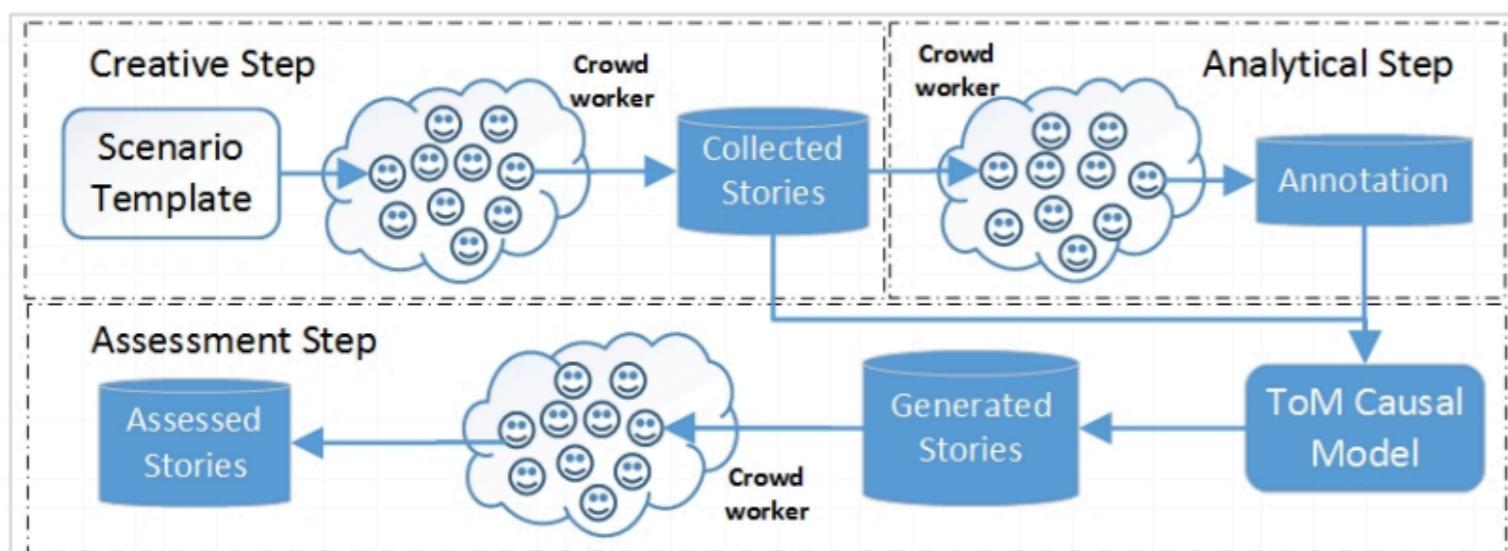

- Story & Natural Language Generation
  - Natural Text
  - Natural Interactions
    - Motivation/Goal analysis
    - Hugely creative
  - Model Analysis

*Prompt: You (Allen) are trying to enter the house of a celebrity, Christopher. Christopher's body guard, Beth, is guarding the house. Please use the following chat window to act out this scenario.*

Welcome, user Exit Chat

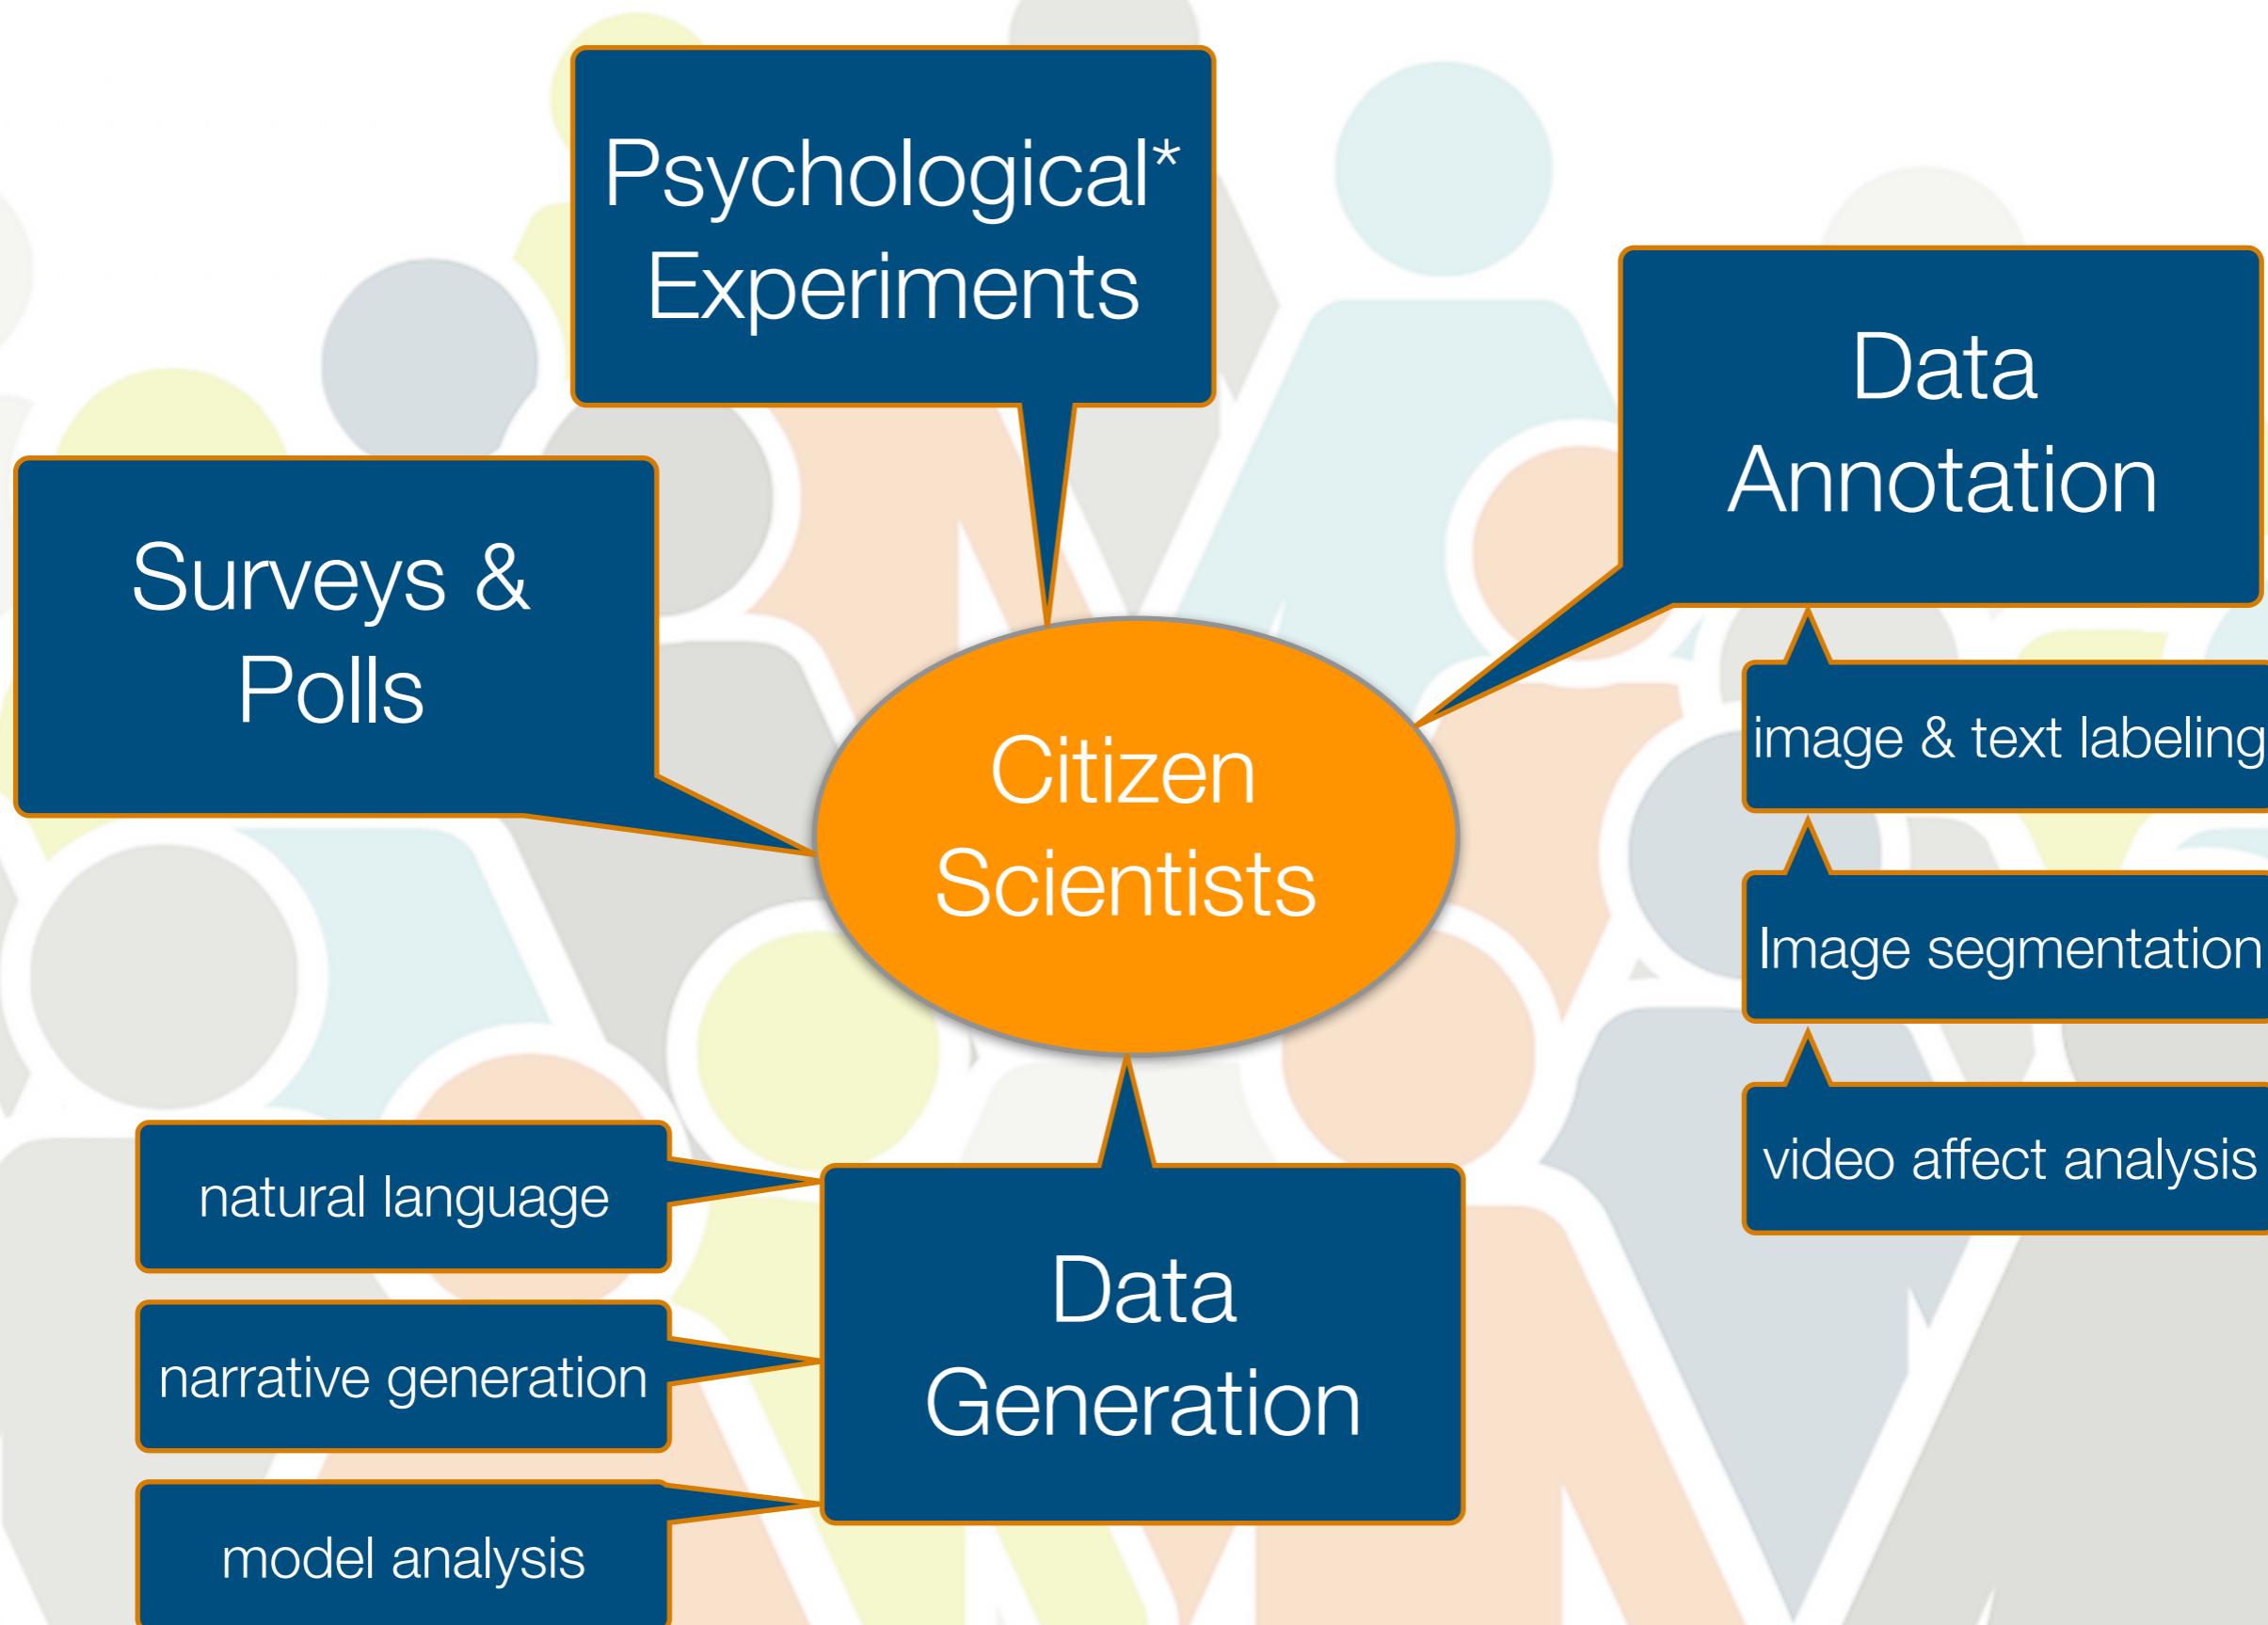

You (Allen): Hello, may I come in?  
Them (Beth): No, you are not allowed.  
You (Allen): I have a special delivery for Christopher.  
Them (Beth): He didn't tell me about that. You cannot come in.

*What do you say next?* Send

# What Is It?

Crowdsourcing & You

# What Is It Good For?

Crowdsourcing & You

- Surveys and Polling
  - Many tools have their own crowdsourcing integration

**SoGoSurvey**

**ZOHO**

**surveygizmo.**

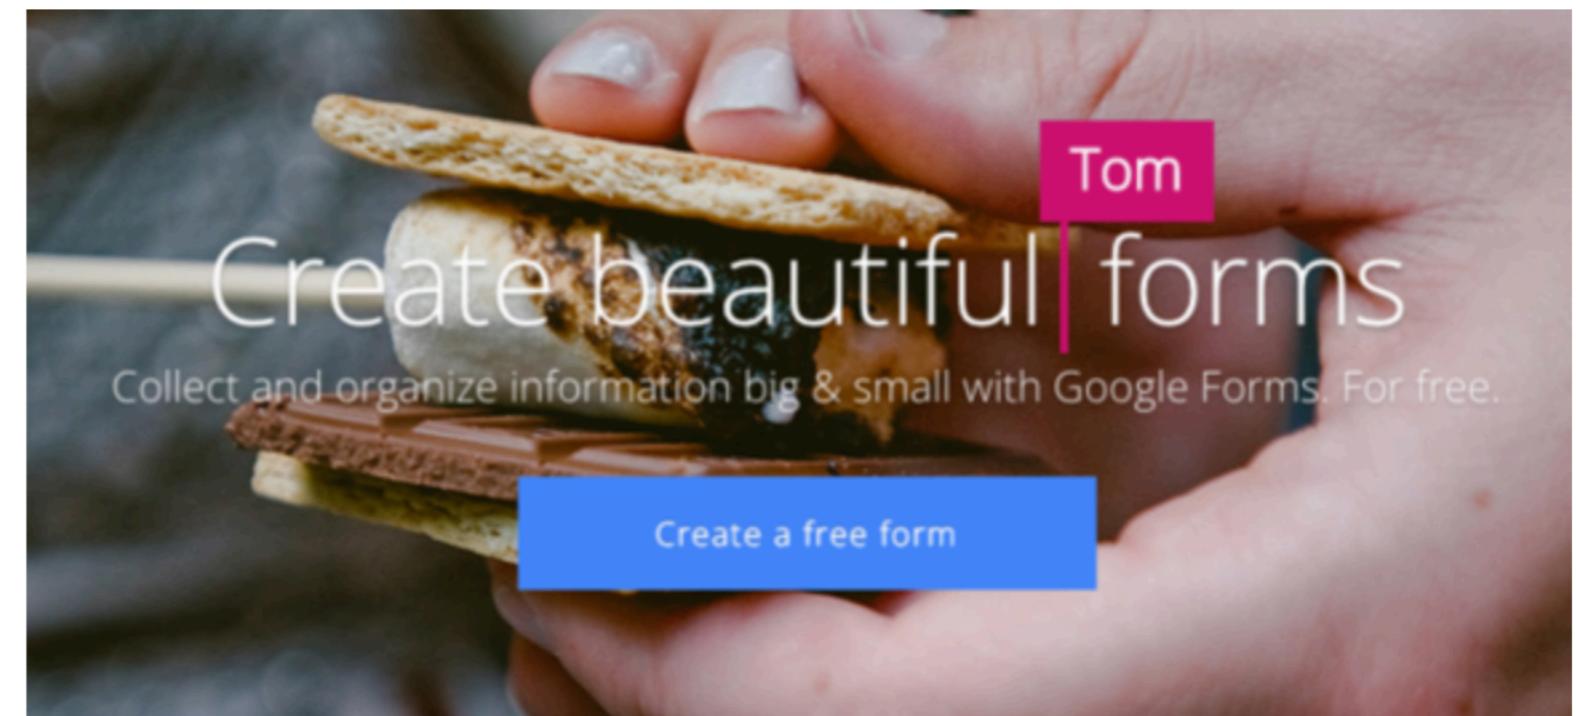

**Typeform** | Ask awesomely

 **SurveyMonkey™**

 **surveyplanet™**

 **Client Heartbeat**

# The Good

Crowdsourcing & You

- Anyone and Everyone... ish
- Huge audiences, super quickly (150-200 / 1-2hrs)
- Much more diverse sample
- Flexible as to what you ask

Worker requirements

Require that Workers be Masters to do your tasks (Who are Mechanical Turk Masters?)

# The Good

Crowdsourcing & You

- Anyone and Everyone... ish
  - Huge audiences, super quickly (150-200 / 1-2hrs)
  - Much more diverse than standard psychology-student sample
  - Flexible as to who can participate
- Incredibly low-effort
- Cheap

# The Bad

Crowdsourcing & You

- Cannot\* handle precision
  - Perceptive inputs and timing measurements are impossible (or very very sketchy)
  - \*However, some relative-timing experiments are shown to work well

- Stroop

Yin et al. 2014

- Word recognition

Cooke et al. 2011

**orange blue green red**

**blue purple green red**

**orange blue red green**

**purple orange red blue**

**green red blue purple**

# The Bad

Crowdsourcing & You

- Cannot\* handle precision
  - Perceptive inputs and timing measurements are impossible (or very very sketchy)
  - \*However, some relative-timing experiments are shown to work well
- Must be **very** simple
  - No one will read instructions
- Motivated for time, not quality

# The Ugly

Crowdsourcing & You

- Ethics...
- Fair pay
- Worker treatment

## Stop using MTurk for research

Ekaterina Damer [Follow](#)

The Good, The Bad and the Ugly: Why Crowdsourcing Needs Ethics

September 2013

DOI: 10.1109/CGC.2013.89

Conference: Cloud and Green Computing (CGC), 2013 Third International Conference on

Florian Alexander Schmidt

Schmidt 2013

NEXT ECONOMY

## The Internet Is Enabling a New Kind of Poorly Paid Hell

For some Americans, sub-minimum-wage online tasks are the only work available.

ALANA SEMUELS JAN 23, 2018

MIRANDA KATZ BACKCHANNEL 08.23.2017 06:55 AM

## Amazon's Turker Crowd Has Had Enough

Workers on Amazon Mechanical Turk have long felt ignored and underpaid. A new platform hopes to give them a better home—and could change the future of crowd work.

## Amazon's Mechanical Turk workers protest: 'I am a human being, not an algorithm'

A Christmas email campaign is asking Amazon's CEO Jeff Bezos to improve terms for workers providing cheap digital labour

## Is Crowdsourcing Bad for Workers?

*"Cloud labor" sites like Crowdflower may be the face of the future—but their wages are stuck in a sweatshop past.*

By Michelle Chen

# The Ugly

Crowdsourcing & You

- Data integrity
  - “up to 25% fraudulent or suspicious responses”  
Smith et al. 2016
  - Bots
  - “Expert survey takers”

# Designing Tasks to Mitigate Badness

*part art, part science*

# The Obvious(?)

Designing Tasks

- Include ethics as a landing page
- Give participants a way to contact you
  - When they contact you, respond to them
- Protect participant data
  - Redirect to external site for data collection
- **Pay them if they completed the work**

**Confirm you want to do this survey**

Please confirm that you want to participate in this survey.

I understand the conditions of this study

**Click this button to start survey**

**Important data protection information**

When you start, this survey will store your answers and browser information on the [PsyToolkit server](#). The responsibility for this survey rests entirely with the researcher(s) listed above. [Click here if you do not want to participate now.](#)

# Ensuring Data Quality

Designing Tasks

- Bot-Proof the Tasks!
  - Surveys should require unique codes
  - “Honey pot” questions
    - If someone answers for a broken URL → spammer
  - Redirect to external sites and generate unique survey codes to paste back in your tool

Please paste the code below in your mturk tab to receive credit for this HIT.

Make sure you write down the following code in the yellow area:

**4NNfgPpv**

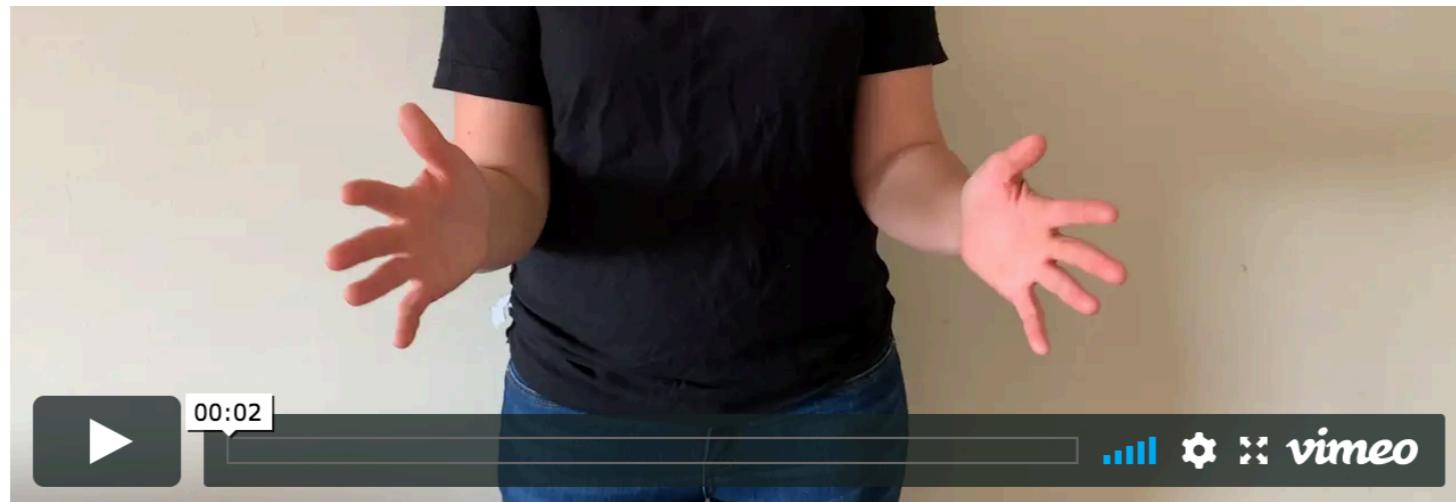

[You are now done with this survey: Now click here to leave this website.](#)

# Ensuring Data Quality

Designing Tasks

- Check for Attentiveness
  - Add a vital MC question to check for attentiveness
  - Or better yet, free-response (with word minimum)

If the video link does not work, please go to this link: <https://vimeo.com/334666369>

**The speaker is talking about a group of people.** Please write what you think they are saying about this group. **Please write at least 10 words.**

What are they saying about the group?

- Optimize to Slow Down ("You will not be able to move on from this page for 30 seconds")

# Making it Attractive

Designing Tasks

I'll tell you what I think  
of this task.

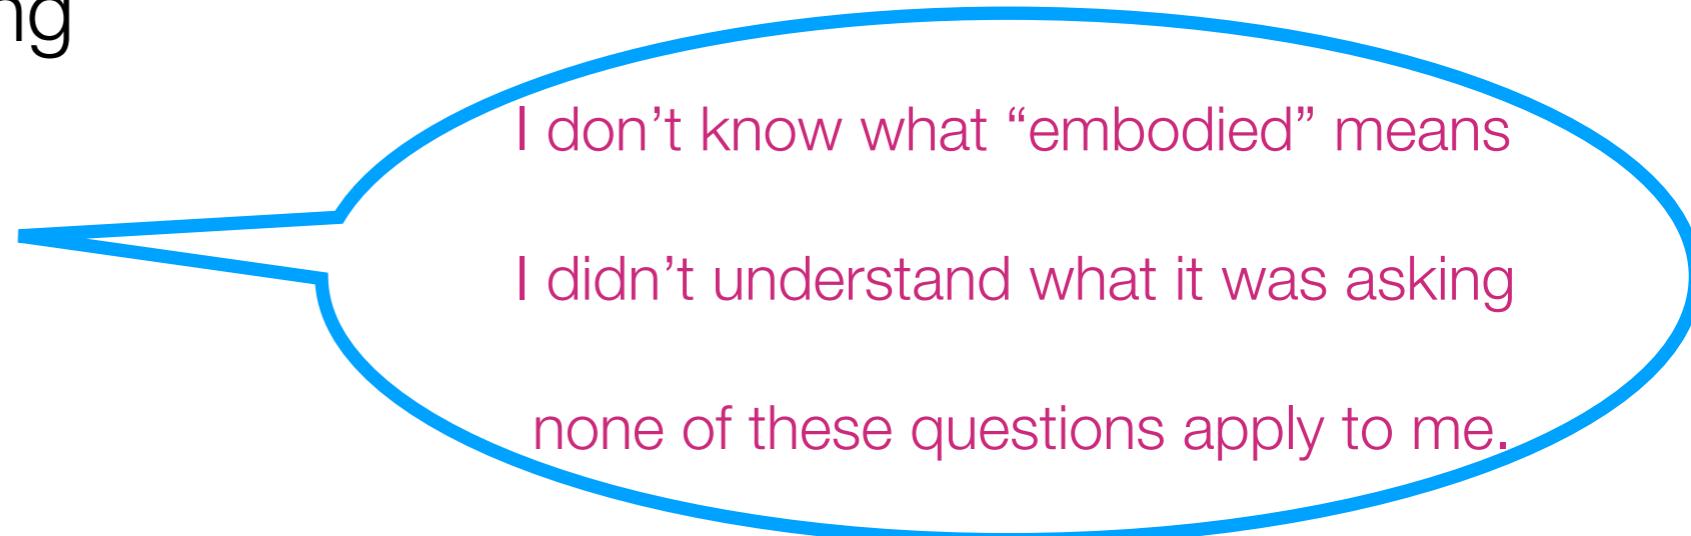

User ID daf439111-e450-11e9-a79d-186590d8f22  
aka "daf"

# Making it Attractive

Designing Tasks

- Instructions are for chumps and nobody reads them
  - Show examples instead
  - Be **very** clear
- Always ask for feedback in an open-ended input box
  - People are good at knowing what they don't like
  - They can point out flaws we, as experimenters, have a hard time seeing

# Making it Attractive

Designing Tasks

- Make the meta-task interesting!
  - Add tags
    - I like fun! oh boy fast money! I'm a scientist!
    - *research, fun, 1 minute, academic, survey, watch video, participate, opinion*
    - I have opinions!
  - Describe payment too!!
    - I want to know exactly what I'm getting

# Making it Attractive

Designing Tasks

- Pay your workers fairly
  - Don't refuse to pay them if they complete the task
    - Instead, offer bonuses for good behavior
  - Literally no recompense for jerks
    - Too little \$\$ == no interest
    - Too much \$\$ == spammers
  - Block a spammer if you find one

# Two Quick Examples

# For Example...

## Designing Tasks

wait this is a rip off.  
**Help us describe How-To Videos! Earn \$2.50 bonus for every 25 videos entered!**

Watch a how-to video, and write a keyword-friendly synopsis describing the video.

how much do I have to do then...?

1. Click on the link to watch the Film & Theater how-to video => [332492 Get a 35mm film look with a depth of field adaptor](#)
2. Write a description of the video linked in 4 or more sentences.
3. Be detailed in your description. Describe how the procedure is done.
4. Description should be at least 100 words.
5. Description should be fewer than 2000 characters.
6. Use the character and word counters below to help you stay within the limits.
7. You must complete 25 video descriptions in order to earn the \$2.50 bonus. Bonuses are distributed after HITs have been completed. The more HITs completed and approved, the more you will earn.
8. It is not necessary to repeat the headline in your entry. It will NOT count toward your word count.
9. Do NOT describe the following: the format, where the video comes from, or how long the video is. This information is IRRELEVANT.
10. Do NOT describe the video in the following manner: "She turns around to face the camera. Then she faces left." Follow the examples below.

I don't... not do it?

Current Word Count: 0    Current Character Count: 0 / 2000

am I supposed to fill this in?

### Criteria for REJECTION:

1. Entries with obvious and multiple spelling or grammatical errors will be rejected.
2. Entries with fewer than 100 words will be automatically rejected.
3. Text copied from the web or other places will be rejected. Multiple plagiarized answers will lead to being BLOCKED. You may use a quotation, but the majority of your content must be ORIGINAL.
4. Incomplete and blank answers will be rejected. Multiple blank answers will result in being blocked.
5. Tasks submitted without descriptions will be rejected.
6. Tasks submitted with inaccurate descriptions will be rejected as well.
7. Do NOT add any personal opinions. Entries with personal opinions or reviews will be automatically REJECTED.
8. If you notify us that a link is broken, we appreciate it but will not be able to accept the submission. The notification will result in rejection.
9. Entries that transcribe the video will be REJECTED.

Am I even going to get paid???

Do I have to answer all of this???

What am I even doing?

there are no pretty pictures :(

# For Example...

Designing Tasks

## Task

Please evaluate the relevance of the following document for the query **milton keynes**.

Web Images Videos Shopping News Maps More | MSN | Hotmail Sign in | United States | Preferences Make Bing your decision engine

**bing** milton keynes

MILTON KEYNES

Milton Keynes Map  
Milton Keynes Restaurants

ALL RESULTS 1-20 of 7,020,000 results - Advanced Sponsored sites

[Milton Keynes - Wikipedia, the free encyclopedia](#)  
Milton Keynes, often abbreviated MK, is a large town in Buckinghamshire, in the south east of England, about 45 miles (72 km) north-west of London. It is also the capital of...

[www.expedia.com](http://www.expedia.com)

Please rate the above document according to its relevance to **milton keynes** as follows. Note that the task is about how relevant to the topic the document is.

- Relevant.** A relevant document for the topic.
- Not relevant.** The document is not good because it doesn't contain any relevant information.

<http://www.gianlucadmartini.net/crowdsourcing/udine/3-setup.pdf>

- I know what to do
- I know what you're asking
- I know how I'm supposed to respond
- Sweet, I can do this.

# Deploying Strategically

Designing Tasks

- Pre-Test Your Survey!
  - 10-15 as a test to see:
    - how long it takes
    - all the links work
    - it's not crazy confusing
  - Change and iterate as needed

# Deploying Strategically

Designing Tasks

- Deploy in small batches
  - 100-200 *max*
  - Algorithm pushes old stuff down
- Between 11am-5pm in your desired timezone
  - Weekdays, or weekends!
- In general, prepare to Iterate

# Assessing Quality

Designing Tasks

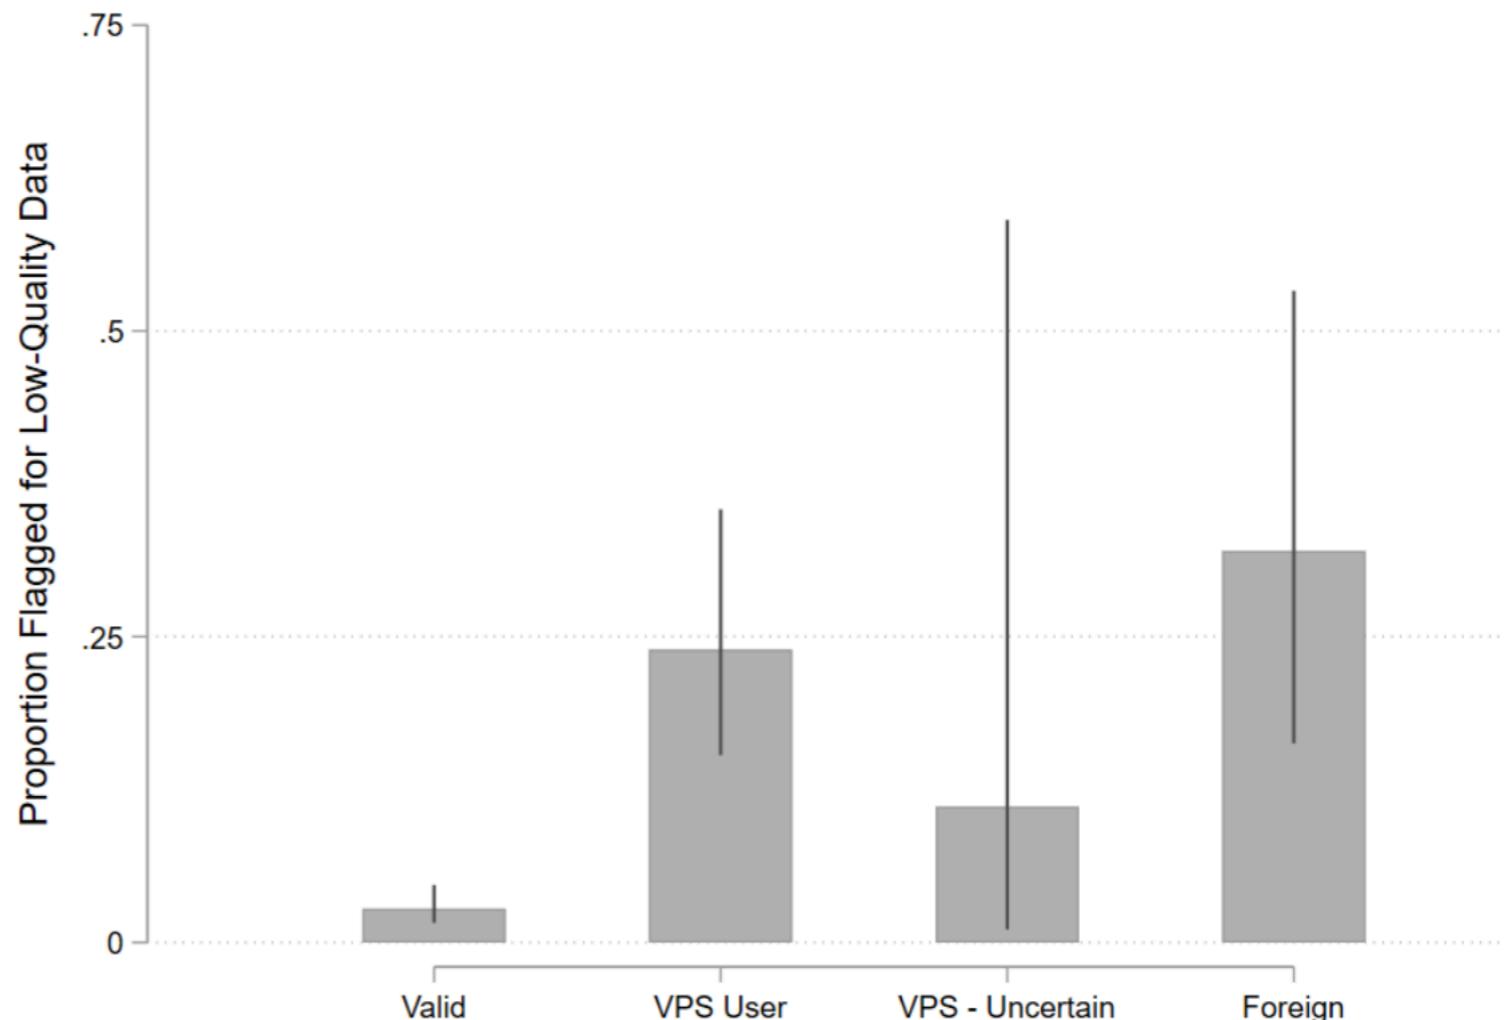

- Agreement
  - Inter-participant agreement percentages
  - Cohen's kappa (2 raters)
  - Fleiss' kappa (any number of raters)
  - Majority votes

# Assessing Quality

Designing Tasks

- Detect abnormal click patterns
- Trace IP addresses
  - Duplicates
  - Spoofs
- Actually read responses\*
  - \*and publish your inclusion criteria!

Kennedy et al. 2018

# Possible Tools

Designing Tasks

Tool	Pros	Cons
<b>Amazon's Mechanical Turk (mTurk, AMT)</b>	<ul style="list-style-type: none"><li>• Huge worker base</li><li>• Many fancy features</li><li>• Lots of worker metadata</li><li>• Very straightforward survey integration</li></ul>	<ul style="list-style-type: none"><li>• Pay only in Amazon gift cards (internationally)</li><li>• Easy to accidentally be evil, or even illegal</li></ul>
<b>Prolific</b>	<ul style="list-style-type: none"><li>• Research-focused</li><li>• GDPR Compliant</li></ul>	<ul style="list-style-type: none"><li>• Small worker base</li><li>• New company... fewer features &amp; more bugs</li></ul>
<b>CrowdFlower</b>	<ul style="list-style-type: none"><li>• Wide global participant pool</li><li>• Wide variety of pre-built tasks</li></ul>	<ul style="list-style-type: none"><li>• Kind of confusing interface</li><li>• Questionable business practices???</li></ul>
<b>Many Many others</b>	Design, specialty work, ML data generation, specificity out the wazoo	Often small, specialized work-bases.
